

Halogen lamps

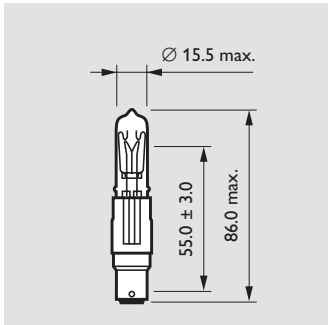

Mains-voltage capsules

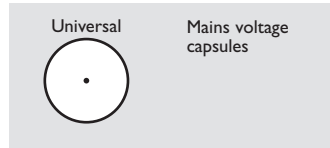

Clear

Frosted

Dimensions in mm

Burning position

Single-ended mains-voltage halogen capsules with a UV Block quartz-glass bulb. These are economical light sources for small lightweight luminaires, but enable well-defined beams. The frosted versions give softer effects. Like all halogen lamps, these capsules produce crisp, white light, and can be dimmed.
Burning position: universal

Applications

- Shops and homes
- Spot- and accent lighting
- Downlighting
